

# Emmanuel Onoja

## Frontend Engineer

rune.notstatic@gmail.com 📍 West Africa 🌐 <https://enigma2xi.vercel.app/>

### Summary

Creative and detail-oriented frontend developer with hands-on experience building modern, responsive, and intuitive user interfaces. Skilled in JavaScript, React, Next.js, and TailwindCSS. Passionate about delivering smooth user experiences and contributing to impactful products like NuWell. Experienced in working with cross-functional teams and translating design ideas into performant, accessible web applications.

### Experience

#### Nuwell AI

##### Frontend Developer

Jan 2025 -

- Built and launched the NuWell web platform, a health-tech nutrition assistant powered by AI.
- Implemented responsive UIs using Next.js, TailwindCSS, and Framer Motion.
- Integrated AI features and image-based food logging functionality.
- Collaborated closely with backend and AI teams to build calorie prediction and recipe recommendation features.

#### JoJo Exchange

##### Technical Assistant

Dec 2024 - Dec 2025

- **Technical Content Writer & Frontend Support – JoJo Exchange**  
*Jul 2023 – Sep 2023*
  - Wrote and edited product and AI-related documentation.
  - Provided frontend support for dashboard improvements and AI chatbot integration.
  - Assisted in UX planning for JoJo's trading assistant features

### Objective

To contribute to forward-thinking teams where I can grow as a frontend engineer, build delightful user experiences, and help shape products that solve real-world problems with modern web technologies.
